Instruction

“Farmer Fred has a big ranch with many fields and many many chickens. Every morning Farmer Fred goes out to collect all the eggs but the chickens play a little game with Farmer Fred and hide all their eggs. So Farmer Fred has to search for them. Can you help find Farmer Fred find the eggs?”

“The first chicken hid her egg somewhere in this field. This small picture shows you where the chicken hid her egg [Experimenter shows one of the stimulus “maps”]. The egg is in the same spot in the field as it is on this picture. Can you put this peg where you think the egg is hidden in this big field?” (Experimenter marks position with a pen.)
